

TAKE USAGE NEXT-LEVEL AND STREAMLINE COLLECTION DEVELOPMENT

TOP 5 REASONS to Diversify Your Databases with the Gale Access Program

Building a quality research database collection is no easy task. How can you enhance your institution's portfolio to meet a variety of research needs while staying within budget? With the *Gale Access Program*, you can give students, researchers, and instructors unlimited, simultaneous access to our most-used databases, eBooks, and primary sources across the curriculum.

1 AFFORDABILITY

Offer the largest package of primary & secondary sources available, at an affordable price that fits your academic library budget

2 ACCREDITATION

Content covers key courses and majors to fulfill national, regional & disciplinary accreditation requirements

3 USAGE

353% Improvement in the number of products used by students & faculty
207% Increase in retrievals after implementation*

4 INTEGRATION

Easily integrate databases into course syllabi, LMSs, LibGuides & discovery systems

5 INTERDISCIPLINARITY

Provide a wider range of subject matter in varying formats and meet the needs of faculty and students around issues related to diversity, equity, and inclusion, and other relevant topics

Gale's proprietary databases, award-winning references, and one-of-a-kind primary sources come together in a multiyear subscription model to deliver a truly unique offering.
