

Make *GREENR* an Essential Part of Your School's Tech Resources

Give your students complete access to the everything green

Make sure that your students have access to *GREENR* no matter where they go. *GREENR* is an online resource designed to be taken out of the classroom and integrated into a variety of educational technologies and social media sites. Your students are online give them a resource that connects that back to your classroom.

Integrate *GREENR* with your Course Management System

Whether you are using Moodle, Sakai, or another CMS you can link *GREENR* directly to your classroom page. Your students will appreciate the one click access to the one resource that covers everything green. Linking from a CMS eliminates headaches for students, drives usage, and ensures students use only quality sources for their research.

Incorporate social media into classroom learning

Use the latest web 2.0 tools to teach and aid in your students learning. *GREENR* makes it easy to share and export content to the most popular social media sites.

Delicious Have your students create lists of relevant articles, case studies, and multimedia that they can go back to by bookmarking articles with Delicious.

Twitter Need to jumpstart your students research? Send them an article from *GREENR* that gets them thinking. Use our "TwitThis" technology to make this process simple.

RSS Doing a class project with extended research? *GREENR* has RSS feeds to our top periodical content so that you can be the first to know of the latest news, research and analysis.

Facebook When your students are working in teams they can use our easy export to Facebook to share articles and other content among all group members.

Tiny Gale URL Use Gale's very own URL shortener to make sharing our persistent URL's simple. Tiny Gale URL's can be shared in Twitter posts, instant messages, emails and more. (www.tinygaleurl.com)

Widgets Gale widgets can be embedded in iGoogle, Facebook, or your class webpage. No logging in, no searching for a link, just simple access to your resources.
