

CUMULATIVE KEYWORD INDEX

This index allows users to locate all subjects, issues, government agencies, companies, programs, associations, schools, educational institutions, books, reports, personal names, and locations cited in *Social Trends & Indicators USA: Work & Leisure*; *Social Trends & Indicators USA: Community & Education*; *Social Trends & Indicators USA: Health & Sickness*; and *Social Trends & Indicators USA: Crime & Justice*. Page references do not necessarily identify the page on which a topic begins. In cases where the topic spans two or more pages, page numbers point to where the index term appears—which may be the second or subsequent page on the topic. Cross-references have been added to index citations for ease in locating related topics.
