
INDEX TO COUNTRIES AND TERRITORIES

This alphabetical list includes countries and dependencies (colonies, protectorates, and other territories) described in the encyclopedia. Countries and territories described in their own articles are followed by the continental volume (printed in *italics*) in which each appears. Country articles are arranged alphabetically in each volume. For example, Argentina, which appears in *Americas*, is listed this way: Argentina—*Americas*. Dependencies are listed here with the title of the volume in which they are treated, followed by the name of the article in which they are dealt with. In a few cases, an alternative name for the same place is given in parentheses at the end of the entry. The name of the volume *Asia and Oceania* is abbreviated in this list to *Asia*.
