

[Boost database usage]

Now with more advocacy tools than ever

Increase Usage! Provide easy access to your resources today

Simply add widgets
 database icons
 or custom collections
 to your
 library resources page.

Create custom collections

It's easy to accommodate repeated course assignments and popular search requests. Simply add a widget to your library homepage, Facebook, iGoogle or blog to provide fast, easy access to customized collections of eBooks, periodicals or a combination of both. Create a custom collection today!

encyclopedia.com

Your library's reference content can now be crawled by Google and other search engines, offering users verifiable, credible information from trusted sources.

New iPhone app: AccessMyLibrary

Show your users how they can instantly access library resources free anytime, anywhere with their iPod touch® or iPhone®.

iPod touch and iPhone are registered trademarks of Apple Inc.

Your single source for helpful library tools

Boost database usage

Now with more support tools than ever

Power to the user™

Power to the user equals value to the library. Gale, part of Cengage Learning, is committed to making your library even more relevant than ever. We are dedicated to increasing the usage of your resources in order to help you achieve your goals.

Social media

Discuss best practices for boosting usage; share reviews of your most-used resources; and keep current with products, events and industry news.

Display materials

Gale can help you market your resources with attention-getting materials like posters, tent cards, bookmarks, shelf-talkers, press release templates and more. We can even show you how to make a shelf-talker and how to best use it.
