BY THE NUMBERS

Wide-ranging industry statistics now available in a single source

Complying statistical research results on specific industries often means scouring magazines, government reports, annual reports and other widely scattered documents. By the Numbers solves that problem by providing a series of one-stop sources that offer in-depth statistics and rankings for specific industries.

Each By the Numbers volume compiles, indexes and graphically represents the results of hundreds of studies that present a thorough picture of the industry that is concise and easy-to-use. Volumes offer:

• Statistics
• Market share analysis
• Employment, payroll and revenue figures
• Forecasts
• Ratios and comparisons
• Annotated profit/loss statements
• Salary figures
• Trends
• And more

VOLUMES OFFER CONVENIENCE AND COMPREHENSIVENESS

While coverage varies from volume to volume, each is designed to offer researchers convenient access to research results and analysis that would otherwise take a great deal of time to assemble and be difficult to interpret.

Volumes feature:

• Nearly 600 tabulations of data, some with graphics
• Comprehensive coverage subject chapters
• International scope, with emphasis on the U.S.

NEW RELEASE

Here are some representative chapters from Volume 1: Electronic and Online Publishing:

• Market, market share and technological data
• Selected Data Index featuring at-a-glance results
• Timeline
• Glossary
• Complete citations to sources listed with chart
• Keyword index

Chapters are devoted to major areas of interest to various user groups. These are subdivided by topics under which tables are sorted alphabetically:

• Demographics — profiles of users, nations and equipment
• Industry and data trends — mergers and acquisitions, products, wholesale, retail
• Electronic commerce — major companies, shopping, banking, business-to-business
• Technology — languages, data storage, data warehousing, e-mail, intranets, patents
• Careers and compensation — certification, employment, Web developers
• Law and disorder — copyright, hackers, privacy, pornography, security, viruses
• Fun, games and education — age group products, computer simulations, games
• International markets and trends — country or regional names serve as topics

Convenient sources of statistical data, these volumes will find users at all levels and in every sector. They offer historical perspective and definitions, insight into trends and analysis of current situations in high interest sectors.

By the Numbers presents results of hundreds of statistical studies by industry

CHARTS AND GRAPHS ARE PRESENTED IN SUBJECT CHAPTERS DIVIDED BY EASILY SCANNED TOPICS

MANY OF THE PRESENTATIONS INCLUDE GRAPHS AND CHARTS

Electronic and Online Publishing

Databases

The table under this topic provide information on major electronic databases as profiled in Gale Directory of Databases. The information presented highlights shows that electronic and online publishing goes back many years and is not entirely a sensation of the Internet or even of the present information age.
