

“Helpful sections include a table a table of contents, a roster of contributors, a preface, an introduction, and an index. A typical entry covers a number of associated topics and has an almost full-page illustration and a good bibliography. Highly recommended.”

Americans at War: Society, Culture, and the Homefront

GOING BEYOND MILITARY HISTORY

 Unlike other references that focus on military and political players, this unique, four-volume set explains to students and general researchers how mobilization for war and how wars themselves have altered the lives of everyday people. Written by scholars in the fields of history, literature and the arts, sociology, law, political science and psychology, the encyclopedia places major American conflicts — from the colonial wars through the war on terrorism — in the context of cultural and social events and conditions on the homefront.

Articles include biographies and topics such as civil liberties, media, politics, popular culture, religion, memory and national identity, civic celebrations and monumental art, literature, the roles of women and minorities, veterans, science and technology, humor, and music.

For students, use of this new resource allows them to better understand the context of each war and prepare complete reports and papers beyond the expected military and political themes often explored. In fact, *Americans at War: Society, Culture and the Homefront* goes beyond the military history to show the creative and destructive effects war has had on American society and culture to better connect researchers to their national and cultural heritage, both past and present.

WITH COVERAGE EXTENDING TO PEOPLE FROM ALL WALKS OF LIFE, THIS FOUR-VOLUME SET INCLUDES:

- 400 A-Z articles arranged by historical period
- Four volumes, each dealing with a particular period of American history: Volume 1 (up to 1815); Volume 2 (1816-1900); Volume 3 (1901-1945); Volume 4 (1946 to the present)
- 200 maps, photos and illustrations
- Approximately 300 international contributors from a broad range of fields, including law, literature, the arts, political science, sociology, psychology and more
- A thematic outline of all content, as well as a year-by-year chronology of events
