RESULTS AT THE SPEED OF BUSINESS

There are 15,000 companies listed on the American Stock Exchange. But the bulk of the country's business is generated by the millions that aren't listed: the smaller, private, more independent firms and franchises. Finding reliable information on such organizations used to be a challenge – until now.

In association with Experian, Gale offers *BizInfo OnlineSM*, a subscription-based digital resource. *BizInfo Online* delivers up-to-date, verified information on more than 12 million U.S. businesses. Leveraging information from Experian's National Business Database, *BizInfo Online* provides users with the most detailed information available on small and mid-sized businesses – both public and private – through an intuitive, easy-to-use interface.

FIND INVALUABLE COMPANY INFORMATION THE EASY WAY

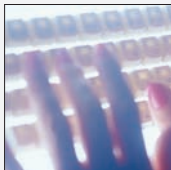

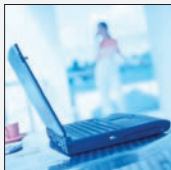

Powerful search capabilities allow users to research competitors or acquisition targets, list potential prospects or customers in a target market and identify key decision makers. Along with SIC and NAICS codes, *BizInfo Online* offers the option of locating industries via a drop-down menu that pinpoints retail, wholesale, manufacturing and many other subcategories.

GET FAST, ACCURATE RESULTS

A variety of other search options – company name, geography, number of employees, years in business, sales, phone numbers, executive names and more – allow you to build and download accurate results without being weighed down with extraneous information.
