

## At Issue

Is the United States ready for a minority president? Do war veterans receive adequate health care? How safe is America's infrastructure? Going an important step beyond broad issue topics, each volume in the At Issue series offers a wide range of viewpoints that focus on a single controversial question.

A strategic mix of primary and secondary sources delivers a panoramic view of the selected issue, giving readers in secondary school and beyond an ideal resource to make informed decisions related to papers, projects and general information.

### EXPERT VIEWPOINTS

This acclaimed series provides in-depth discussions by leading advocates – professors, journalists, association executives, researchers and more – who support many differing views. As a result, the books not only offer a full spectrum of opinion on the issue, but also provide a roadmap to test the validity of the arguments by pointing to additional sources.

Extensive bibliographies and annotated lists of relevant organizations to contact offer a gateway to further research. This series provides a quick grounding in the issues, a challenge to critical thinking skills, and an excellent research tool in each inexpensive volume.

- A list of organizations to contact
- Comprehensive index to aid research

#### Shelf-friendly sizing

- 6" x 9" trim size
- 80-128 pages per volume

*"The At Issue series, for grades 10-12, provides a range of opinions on specific social issues, excerpted from online and print articles and speeches by government officials, journalists, doctors, professors, and others. The introduction to each book provides background on the issue and the brief, relatively up-to-date articles are helpfully prefaced by paragraph-long summaries, making the volumes even handier for students doing reports."*
