

Save 40% on the most comprehensive online business library ever with
BUSINESS INFOSUITE

Build a single site for comprehensive, reliable and integrated business research that meets the needs of professionals, business students, undergraduate and graduate researchers and casual investors with the Gale Group's **Business InfoSuite**, available only through Dec. 1, 1999.

SAVE WITH THE BUSINESS INFOSUITE

With Business InfoSuite, you build the business research site that best meets the needs of all your users. Begin with **General BusinessFile ASAP**, **Gale Business Resources**, **Research Bank Web** and **PROMT**®. These highly acclaimed databases will be configured to your specifications through InfoTrac Total AccessSM our revolutionary new search interface that seamlessly retrieves full-text results across databases. Then, we'll configure 10 top-ranked business Web sites and your OPAC as part of your InfoSuite, allowing users to work with one familiar InfoTrac® interface to conduct all their online business research. Best of all, when you take advantage of Gale Group's Business InfoSuite by Dec. 1, 1999, you'll receive the entire package at an incredible savings of 40%!

COVER THE BUSINESS WORLD FROM EVERY ANGLE WITH BUSINESS INFOSUITE

With the Gale Group's specially designed

Business InfoSuite discount package, you receive a wide-range of content that provides comprehensive coverage of businesses and industries around the world. And with ten business Web sites of your choice from our list of premium sites, you can fine-tune this online business library to meet your special needs. Compare the variety of uses available in each of the four primary business databases listed on the back of this sheet to see how the Business InfoSuite package provides a harmonious single-search source to nearly every business query.

HURRY! OFFER EXPIRES DEC. 1, 1999

Take advantage of this great offer before Dec. 1, 1999 to receive a substantial discount on this unique collection of electronic business references. For pricing information contact your Gale Group Representative for details at 1-800-877-GALE. Outside the U.S. and Canada, e-mail international@galegroup.com.

CHECK OUT WHAT GALE GROUP'S BUSINESS INFOSUITE OFFERS YOUR LIBRARY:

General BusinessFile ASAP's controlled vocabulary enables precise retrieval of periodicals, newspapers, newswires, company profiles and investment reports in a single search. *General BusinessFile ASAP* is a fully interrelational database designed to provide users with unparalleled access to:

- Late-breaking news and event coverage on companies, industries, products and executives
- The latest in business theory, economics and best practices from more than 1,300 business periodicals
- More than 50,000 full-text Investext® reports
- More than 100,000 company profiles

Gale Business Resources is your one-stop source for company histories, directory data, statistics and industry and product information. This comprehensive database will assist users in:

- Forecasting and studying industry trends
- Assessing market potential
- Plotting product growth
- Networking important industries, companies and trade associations

Research Bank Web™ is the premier investment and financial analysis database on global companies and industries that provides unlimited access to Investext Group's original image investment reports, Trade Association Reports and *Moody's Company Reports*. Use *Research Bank Web* to:

- Evaluate companies and analyze their businesses

- Identify major players in an industry or market
- Obtain market share forecasts
- Examine the historical performance of a company, industry or geographical region

PROMT® provides sophisticated access to critical data sets through Predicast's hierarchical coding scheme, enabling precise retrieval of products, topical subdivisions and geographic areas. *PROMT* covers public and private companies around the globe and is an invaluable source for competitive intelligence. Use this database to track and identify:

- Product life cycles and the companies involved at every step. Look for information on manufacturing and materials to product sales, competitive companies and so much more
- Applied technology and its entrance into the marketplace. Track industries from the research lab to the product introduction and marketing
- International business and economic trends at all geographic levels

Plus, **InfoTrac Total AccessSM** — When you take advantage of Gale Group's Business InfoSuite offer, we'll configure your new databases in the revolutionary new InfoTrac Total Access search interface that allows you to access all your electronic resources in a single search. With InfoTrac Total Access, you can customize the interface; select the search modes that best fit your needs; tailor content to the needs of your patrons; save searches with InfoTrac InfoMarksSM and establish or maintain remote patron authentication.

Simultaneously search the Web, your OPAC and 10 Web sites

Included with the Business InfoSuite package when you accept **InfoTrac Total Access** is the configuration of your Web-based OPAC and your choice of 10 business Web sites from the following list:
