Encyclopedia of Products & Industries - Manufacturing (EPIM)

is designed to assist college students who need to research products and the relationships between products and their industries. This 2-volume set emphasizes manufacturers of durable goods such as tires; with a subsequent edition planned to cover services such as coffee shop services and goods. *EPIM* helps users explore various aspects of a product, the manufacturers, suppliers, immediate and adjacent industries and markets. *EPIM* covers more than 125 popular products such as tires, automobiles, computers, mobile phones and devices, personal care items such as hair dryers, razors, apparel, furniture, fixtures, etc. Tables and charts are included as needed to clarify or expand on each essay.

Encyclopedia of Products & Industries - Manufacturing features:

- Product definitions
- Key producers/manufacturers
- Supply chain
- Distribution channels
- Key users of the product — including discussion of its use within finished goods
- Adjacent industries and markets
- Research and development
- Current Trends
- Target markets and segmentation (tables, charts and graphs)
- Annotated bibliography of print and electronic sources for further research.
- Annotated list of related associations and organizations in core or adjacent manufactures/industries, including addresses, phone numbers, email addresses, and Websites, as available
- 2 volumes, arranged A-Z
- 125 entries, averaging 8 pages
- More than 100 color illustrations and tables
