

# Government Research Directory

## Now online on Gale Directory Library

**Now Available** For more than 20 years, *Government Research Directory* has been the most comprehensive source of information available on more than 7,500 research programs and facilities operated by or for the United States and Canadian federal governments. This detailed directory covers programs in basic, applied, developmental, exploratory, experimental and theoretic research in virtually every discipline, and includes federal agencies and bureaus, government owned or operated research facilities, cooperative research programs, information centers, support units and many others.

Fully updated entries in *Government Research Directory* typically include full contact information, including address, phone, fax, E-mail, Web URL and homepage; parent agency names and research unit names; acronym; head of organization; date founded; description; budget; staff; financial support; research; resources; databases; publications; educational activities; meetings; scholarships; awards; services; memberships; library holdings; subjects; personnel; and much more.

### Real-world applications might include:

- Business technology professionals can identify governmental research programs in business and related fields, compiling a list of detailed contact information
- Graduate students in science can quickly compile a list of governmental research facilities that focus on specific subjects in science organized geographically
- Historians and social scientists can easily locate subject-specific periodicals and documents published by government research facilities
- And many others

### ABOUT GALE DIRECTORY LIBRARY

With *Gale Directory Library*, researchers can use state-of-the-art functionality to perform a range of data sorting, filtering and exporting. These innovative features, unlike anything seen previously from our directories, make *Gale Directory Library* the essential tool for research.

- **Find contacts** — Finding a company, person, publication (or other kind of entity) is easy. Basic search lets users quickly look up names, search by keyword, and browse the full text of your directory holdings.
- **Generate lists, analyze trends** — Export search results and use them in programs like Excel or Word, making the creation of mailing lists a snap.
- **Cross-searchable** — Search across our growing number of directory titles. Each directory can be searched individually by its own unique data fields, or search the entire directory collection.

### Additional benefits of *Gale Directory Library*:

- Use it like a database; buy and own it like a book collection
- State-of-the-art search, sort and export features
- Available 24/7 from any Internet connected computer
- Choose the directory titles you want, and own the data
- Print, e-mail or download individual entries
- Entries include hot-linked Web sites and e-mail addresses
- Export results to analyze data or generate mailing lists
- Includes more data than print version, when appropriate
- Marked items lists let you select entries to generate custom results
- Available backfiles provide historical data
- Growing list of available directories
