

# ¡Informe!

## BUILT FROM THE GROUND UP FOR SPANISH SPEAKERS

The first electronic database in Spanish, *¡Informe!* is specifically designed to meet the research needs of Spanish-speaking users. With full-text articles from the most popular Spanish-language and bilingual periodicals, it provides quality Hispanic reference material — not simply Spanish translations of English-language materials. And its powerful, easy-to-use interface is configured for Spanish-speaking users — allowing researchers to think about a topic and conduct searches in Spanish. In short, *¡Informe!* offers Spanish-speaking library users the same high-quality research environment that is available to English speakers.

## THE CORNERSTONE OF YOUR SPANISH-LANGUAGE HOLDINGS

An electronic library filled with Spanish-language periodicals is only as good as its holdings. *¡Informe!* offers immediate access to the most popular titles among Hispanic library users. Aimed at the needs of both serious researchers and casual browsers, *¡Informe!* provides single-search access to the full text of more than 425 Spanish-

language and bilingual products, covering a wide range of subject matter from current events to academic interests. Key titles include:

- Latin America Research Review
- NACLA Report on the Americas
- La Opinión (Los Angeles, CA)
- National Geographic en Español
- Nexos: Sociedad, Ciencia, Literatura
- Noticias en Español
- Epoca
- Siempre!
- And over 15 key Latin American newspapers.

Whether users are looking for up-to-the-minute information on entertainment or the latest political hopefuls, or for the latest publications from major U.S. and Latin American academic publishers, *¡Informe!* offers a wide range of research alternatives. Topics covered include:

- News, politics and current events
- Cultural and lifestyle issues
- Entertainment
- Health and parenting
- Literature, history and science
- And more!

▲ The main search page offers a variety of search options, including a quick keyword search

▲ Results provide complete citations for retrieved articles

## FREE TRIAL

## A LANGUAGE-SENSITIVE INTERFACE

*¡Informe!* was designed to reflect the importance of language to the research process. Spanish-speaking researchers need to be able to compose their ideas and formulate queries in Spanish. With a Spanish-language interface and search criteria, *¡Informe!* allows users to conduct research in Spanish from start to finish. Language-sensitive features include:

- A powerful interface that allows users to employ Spanish terminology to conduct and evaluate searches
- Indexing terms and a thesaurus based on the expressions Spanish-speakers commonly use
- A Spanish subject guide that provides a clear overview of topics, subdivisions and related subjects
- Meets the needs of English-speaking librarians and non-native speakers

*¡Informe!* is designed to be accessible to English-speaking users as well. The user interface can be configured to appear in either English or Spanish.

## UPDATES

Already comprised of more than 200,000 documents, *¡Informe!* is updated daily.

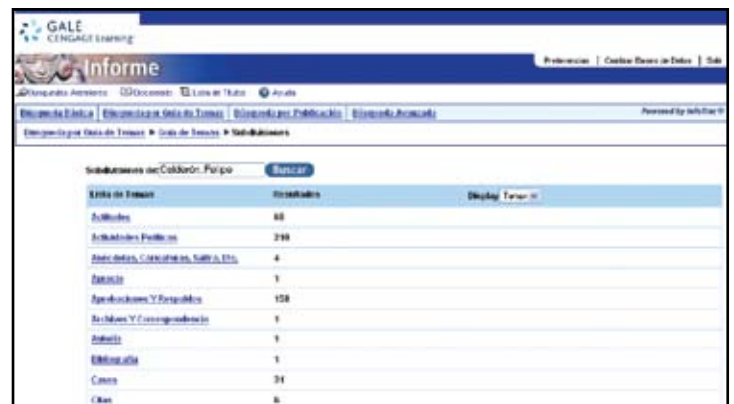

## POWERSEARCH DELIVERS IT ALL — SEAMLESS SEARCHING AND OPTIMAL RESULTS

Intuitive, flexible and powerful, the *Gale PowerSearch* platform interface makes *¡Informe!* a truly self-service database for your users. It features:

- A dual-mode interface, including Advanced Search, that helps users quickly pinpoint exactly what they need to answer their questions, whether they start with a general or precise idea of what to search
- Superior indexing and a vast controlled vocabulary to aid searchers in locating relevant information without the aggravation of hunting for one exact term
- Customizable search options that you configure and control
- *InfoTrac InfoMarks™* — users can copy and paste persistent URLs enabling them to save, reuse and share search results
- Many “See” and “See Also” references to guide patrons to similar or related topics

▲ Users can also search by more precise criteria using the Advanced Search

▲ A subject search helps users quickly identify relevant articles
