*¡Informe!*'s state-of-the-art features are powered by *InfoTrac*,<sup>®</sup> Thomson Gale's robust search engine. Its intuitive interface allows users to access a variety of searches without the learning curve necessary when searching multiple electronic sources. And results are returned by document type, allowing students to focus on the information presented rather than typical Web-generated hit lists.

## Especially for educators

An *InfoMark* icon on your results page means you can bookmark the page for future reference, copy it into an e-mail message or embed it into a Web page. Because you can bookmark at the "search" level, a particular search can be updated daily — ideal for researching current events. *InfoMarks* are also useful for creating reading lists, course reserves, links to periodical or newspaper sources, lesson plans and much more.
