

NewsRoom Library Edition

UPDATED DAILY! Dialog® provides the content. Gale® provides the access to present *NewsRoom Library Edition*, created with your users in mind. An easy-to-navigate interface, similar to *InfoTrac*®, connects users to more than 40 newspapers, newswires and news databases with domestic and international coverage at regional and national levels. Loaded with content not currently available in other Gale products, files are updated daily and deep backfiles are available on many titles.

Refine the search process

NewsRoom Library Edition makes it easy to achieve targeted results on specific subjects. Several options are available to limit the search.

Using a **keyword** search, users can narrow their search by:

- Date
- Free text
- Newspaper
- Year

Using an **advanced** search, users can narrow their search by:

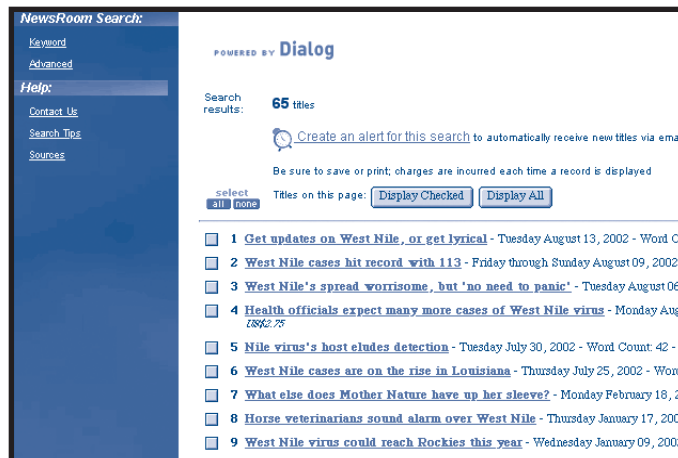

- Date
- Geography
- Main subject
- Section heading
- Title
- Year

The above search categories can be used to compare how coverage of a particular subject differs around the world. Using the various search fields, patrons can quickly locate articles from a particular town, state or country that specifically relates to their search term.

Sources link — a quick look at all available titles

Users can view all available titles through the “sources” link. Content is retrieved from newspapers and newswires from all over the world, including:
