

Research Centers and Services Directory

Here's the fastest way to find people and organizations working on the leading edge

Research Centers and Services Directory is a comprehensive guide to nonprofit research organizations — government, university, independent nonprofit and commercial R&D organizations operating in the U.S and throughout the world. This Internet-based resource can provide details on the programs, staffing, publications, and services of research centers, laboratories, institutes, experiment stations, farms, research support facilities, technology transfer centers, think tanks, incubators, research parks and more.

Combining the acclaimed *Research Centers Directory*, *International Research Centers Directory* and *Government Research Directory*, this database provides single-search access to information on more than 26,500 organizations conducting fundamental, applied, and developmental studies, as well as data gathering, analysis and synthesis activities.

Applications

Public and academic librarians, library patrons and marketing and public relations professionals will use this database to:

- Locate contact information for specific research centers
- Learn more about the research activities of a particular center
- Identify research centers doing research on a specific subject
- Determine which centers operate in a particular geographic location
- Discover underwriters, budget information, key personnel or other details concerning a research center

Benefits

The combined databases featured in *Research Centers and Services Directory* provide countless benefits to users including:

- Quick access and navigation of more than 26,500 individual research organizations
- Devise complex search strategies, very broad or very specific
- Search multiple fields of data simultaneously
- Universal access from any Web-capable computer (including 24-hour remote access)
- No hardware/storage issues
- Data updates are automatic, requiring no reload or download
- Consistent interface familiar to users of other GaleNet databases

Coverage

- Research Centers — university-related and independent nonprofit research organizations in the U.S. and Canada — 14,000
- International Research Centers — government, university, independent nonprofit, and commercial research and development organizations outside the U.S. — 8,200
- Government Research and Development Centers — centers, facilities and programs operated by or for the U.S. and Canadian federal governments — 4,300

What you'll find

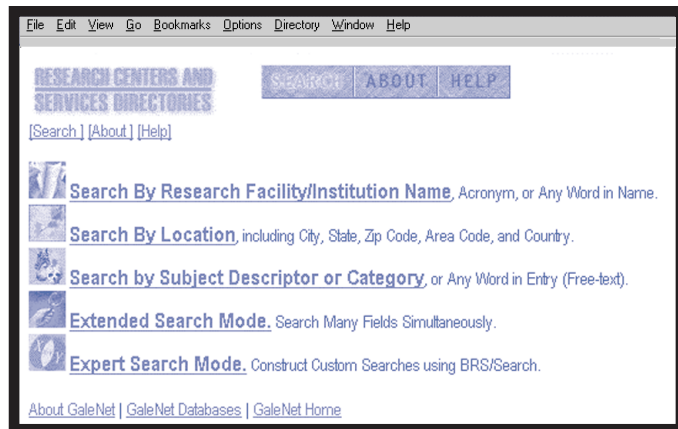

Entries in the *Research Centers and Services Directory* may include:

- Research facility/institution name
- Alternate and former name(s)
- Acronym
